ME

“Aries was the most protective yet loving boy. I saved him 3 years ago from a very bad situation. He helped me so much get through so many hard times in the 3 years my family and I had him. I will miss how he would jump around the house and yard when he was really excited, I will miss the way he would tell me that I'm not done with you loving on me by shoving his head between my arm and body, I will miss everything about him. My heart is broken and the house feels empty without him. His fur sisters miss their playmate. I know you will be waiting for me and the rest of the family.
