SH

“ A dear friend and my first Veterinarian, Dr Ralph Gomez DVM, graced me with the sign he always had over the entrance to his Veterinary Hospital when he retired after over 50 years. It said- "We must always remember that animals are a sacred trust to us from Our Heavenly Father." I have always lived by that. I have been blessed with 100s of them, in every variety, over my lifetime. Each was special in their own way, but a few just reached out and took possession of my heart and soul. Ava Jane, in one month shy of 16 years at my side, is my heart. A tiny 6.5 lb Yorkshire Terrier with beautiful eyes and a personality the size of the heavens made every single day better. We had a bond that will continue on even now that she has crossed over Rainbow Bridge 10-06-2023. I know we will be together one day and she will still be my constant companion. Her greatest enjoyment was our rides in our pickup truck. It didn't matter if it was just to the barn, mailbox or across the country. I was blessed to take one final drive with Ava Jane to a peaceful and scenic State Park yesterday and think of memories from there. She sat there on the creek bank, in perfect sunshine, and listened to the creek rushing over the rocks.

It is now etched into my being. My Daddy said I was "His Baby Girl" and his "Little Princess". AVA JANE was, and forever will be, mine. You are my heart and I will miss you every day and night.

Your Mom- Susan
