Pedro SJr - November 08, 2018 at 10:39 PM

“ I remember having BabyGirl in 2008, which means I had her before this time frame. She wasn't a pet in our family but a meaningful family member. She would wake you in the morning letting you know if was time for her to go out & for you to start your day. she would knock on the door letting you know she was ready to come back in. she would come to you when it was time for her to eat & let you know when she needed to go back out. she would let you know when it was time to go to bed. she trained our other animals not only not to fight but how to go out side to use the restroom. she has went on many trips w/ us out of state & is a great traveling companion. she walked the plains of Illinois, Iowa, Missouri, Texas, & of course here in Oklahoma. She had others who lived w/ her & loved her very much. LadyBug was one who went before her & MaxPoo who is here, morening w/ us. She would chase Squires in our back yard & sun bathe out on our Deck. She loved to ride in my Truck & set in the left of the driver on the arm & arm rest of the door so she can see what was going on. She thought the Drive thru bank window was the same as your local McDonalds & she loved whatever she can get to eat & was very care free when it came to her figure. She fell ill In 2016, when we was in the living are of our home & was later taken to the Will Rogers Animal Clinic in Oolgha, ok. where she was found out to be a Dyabetic . & from there forward she had two shots a day & she took it well knowing she wasn't able to go thru her day w/out her meds. Although she tried very hard to live a normal life., hanging in the front yard, going up & down the steps, jumping into the chair in the living room, her age slowly slipped up on her & she had some issues but she had given this family many GREAT times. so we picked up & took care of her needs & no matter the cost we ordered the items she needed & did everything we thought we make her happy & more comfortable. There will never be another like her & she is very loved. I look for her to come down the hall way of my home every so often. I still keep my body moved over in the bed to allow for her to lay there. I still half expect to feel her cold nose touch my leg when I'm in my chair..... she was w/ us more the 10yrs & I'm not sure if ill ever get over her being here w/ us..... not really sure I want to..... I went

threw facebook & found some pictures. so Ill be uploading those soon. I WILL ALWAYS LOVE MY BABYGIRL & THERE WILL NEVER BE ANOTHER.
