“ Butch was such a great dog. I remember When me and my grandpa would go outside and butch had this little soccer ball that he LOVED to play with. Butch would go after that ball like crazy. Butch loved getting his belly rubs from grandpa. Butch also loved to get haircuts.

When butch was younger he loved to jump up on the couch and look out the window and watch everyone drive by and wait for me to get home from school. Butch loved meeting new people and he loved attention. Buh I'm going to miss butch a whole lot and I love him more than anything in this world. Butch was my child hood dog. Butch also loved playing with stinky face which was a little Home Depot stuffed animal. Butch would run around the house with that in his mouth all the time. I have thousands of memories with butch but it would take me forever to write them all. Just know you're missed truly butch and I love you.
