“ Chesney was not just a Boxer ,she was our love, she was Tom's true and loyal companion. Coming to his rescue before he even knew he was in need of medical care. When he fell a year ago and broke both arms several fingers and most of his facial bones she managed to get out of her backyard ,came to his side even as paramedics were attending to him she stayed by his side . A police officer consoled her and loved her as the ambulance pulled away. She trusted him enough to allow him to take her in the house as I prepared to leave. She was amazing . Our love for her takes 2nd to her love for us.
