ME

“ *Buttons was such a sweetie. We babysat her a few years ago and she brought so much joy and love to our home during those few days spent with us. She will be greatly missed. She was a blessed pup to have been so loved by her momma, Sheena.* ”

“ *Buttons was my very special friend. I got her when she was 4 weeks old. She was chewing on the buttons on my blouse and so I named her Buttons.* ”

We had 16 years, two months and 8 days together. When I was sad, she brought me laughter! She was always by my side. Obedient. Smart. In the morning when she smelled omelettes cooking in the skillet, she barked one time to say, “Don’t forget mine!” She was always able to tell me what she wanted/needed. My heart is shattered at her loss. I find myself looking for her. Wanting to feed her. But she is no longer with me. Fancy Little Lady Buttons was a joy, full of love, and she is greatly missed! Rest in peace, my beautiful, precious baby! I love you forever!
