GW

“ I'm not going to lie . When u first brought him home I was concerned. He needed vet care & Blaine was so small . But they become fast friends. And he loved his whole family ! He allowed Blaine to sit on his back & pull his ears without ever moving . He will be missed by all of us ,!

“ You will forever be missed my baby boy! I'll never forget the first day bringing you home, you were such a loving old man. You've lived a good life I wish we could have done more for you. We love you, Mom& dad, Blaine and Hunter. ❤️
