

JoeJoe Butterball

September 23, 2019

JoeJoe Butterball

Tribute Wall

“ JoeJoe Butterball is a very easy going boy. He is 18 years old & weighed almost 9 pounds after losing weight from having hyperthyroid disease this year. He was a little butterball baby until this year. Even though he was on medication, he did not gain the weight back. He had a heart attack & passed away on Saturday, September 21st at 9:15 pm. He is deeply loved by his family & will live forever in our hearts. We will meet you at the Rainbow Bridge, Butter.
