“ Never in my life would I have thought that we would have a cat that learned how to play fetch. One day when we was getting a happy meal for my mom who liked the toys that came with the meals, there was a rip cord helicopter toy that Ling and her sister Ming went crazy for!! and Ling would watch it fly across the room, catch it, bat it around a few times and then happily prance back to me with the spinner part in her mouth and drop it in front of me, look up at me and meow "again". I love you Ling & Ming!! We will miss you Forever
