“ *Lola we went on vacation with the kids but obviously you were not there. It broke our hearts. And when everyone was asleep and it was just daddy and me sitting by the fire we would talk about you and how much you would have loved this place.i still can't believe you are gone. I keep thinking we can just come home and see you there... I love you my sweet baby. I miss you forever*

“ *Lola, I miss you and love you so much. We got your ashes back and I put them right next to our bed in your "spot". I'm beyond devastated that you are gone. I miss the pitterpatter of your feet. I miss seeing you sleeping on top of the couch. I miss watching you carry mouthfuls of food around the house so you can eat in the same room as me. I could go on forever. I love you Lola and I'm so sorry we couldn't beat this cancer. I wish you could come back to me. You were more than a "just a dog" you were my (our) family. I love you forever. love mommy*
