“ Woowie, you were a very special kitty from the very first when I adopted you from a vet. We immediately formed a special and lasting bond. You shared so much of my life to include traveling for a year. You always knew when I was ill and would snuggle up to me until I was well again. You loved holding hands and I will miss our morning ritual of holding hands while I drank coffee. I will miss you snuggled up to your special pillow on the couch. You were my sweet baby cakes but I know we will be together again some day.
