DR

“ After my Lucy passed, I didn't want another pet. Then you came along. You ran straight to me laid on your back wanting a belly rub. That was it, you were my baby girl. You always had to be where ever I was. From sharing snacks, spending the morning with you cleaning my hand before work to your greeting back and wagging tail when I got home. You will be forever in my heart. Rest in peace sissy girl daddy loves you and misses you.

AC

“ My sweet sweet girl, 19 years ago you came into my life and what a time we had together. You were there with me through so many highs and lows. You were not just a member of our family but the center of it. Mommy loves you so much babygirl and you will FOREVER be missed!!!
