“ Rose I can remember getting you a little over 12 years ago and noticing your big floppy ears. When we would take you on car rides you would hang your head out the window and your ears would flop in the wind. Always wanted a pup cup from Starbucks. I love you and will miss you. Aka "Weiner" now your with Brandi chasing squirrels and trying to be a big dog.

“ I will never forget you wearing whatever clothes i put you in you would wear them for me but if i left to go somewhere you would have someone else take them off of you!
