“ *I had shadow since day one feeding her with a little bottle. She always stayed by Our family’s side, loving , caring & layed on us always! She was an in side cat didnt go out much , but if she did as soon as shadow walked out the door , she was like nope im coming back in. Lol As the years went by shadow always laying on everything & became an old grumpy cat! But we loved shadow for shadow & will love shadow forever! 🥰🥰*

R.I.P I remember you as a tiny, tiny baby. I never imagined your life would last so long and touch your family as much as it did. You will always be a part of them.
