“ Our Tye found us as a 6 week old puppy at a goat show. I say that because we weren't looking for another dog, but our daughter and him bonded immediately and well you know the rest of the story....thirteen years and four months later we had to tearfully say goodbye to our best big buddy on May 28, 2024 after he had an apparent seizure and heart failure. 🥹 Tye was the best! We have so many memories and life experiences that we all have shared with him as a family. He was our big protector, was spoiled, and always wanted to be the center of everything. In more recent years he had started having some joint issues, but he remained active. He got along great with his other siblings (a dachshund Lady and two cats George and Zazz) and our daughters dog Fynn. I already miss his funny habits and sweet spirit. Our lives will never be the same, but we are grateful for the 13 years and 4 months we had with him. Rest now our best boy...we love you buddy! Our forever Tye Tye bear! 🥹💔🐶🌈
